About Me

I'm Jatin Panchal, a Senior Graphic Designer with 9+ years of experience. I enjoy creating designs that not only look good but also connect with people and communicate the right message.

Over the years, I've worked with tools like Photoshop, Illustrator, After Effects, and Figma. Lately, I've also been using AI tools like ChatGPT, Mid-journey, and Freepik to speed up my workflow and explore more creative possibilities.

I've worked on everything from social media creatives to motion graphics and Video Editing, and I genuinely enjoy bringing ideas to life through design.
